SKILLS

JavaScript | HTML | CSS | AngularJS | React.js | NodeJS | Express | PostgreSQL | MongoDB | Illustrator

PROJECTS

INSTAGRAM CLONE - JAN 2017 - THEINSTAGRAMCLONE.HEROKUAPP.COM

A full-stack (React.js, Node, Express, MongoDB) application that mimics and improves on the functionality of the popular social media site.

- Utilizes a custom jQuery library to apply the filters over the pictures.
- Pushed myself to learn ES6 and component based architecture with React.js.

REDXSALES.COM - DEC 2016 - REDXSALES.COM

Another full-stack (AngularJS, Node, Express, PostgreSQL) application for a sales team to track their sales, goals, revenue, and commissions.

- Learned Google OAuth with Passport for authentication. Creates new users automatically if someone hasn't logged in before.
- Utilizes complicated SQL calls to always pull data from the right dates.

THE MATCHING BEE - NOV 2016 JEFFERSONSNOW.GITHUB.IO/BEEES

A front-end children's game built in angular where players match flying bees to flowers of different colors.

- Custom Angular directive places the bee elements in different locations across the screen and invokes a recursive function that continuously runs to pick random points for the bees to fly to.
- Designed all the bees and flowers in Adobe Illustrator.

EXPERIENCE

SALES REP, REDX; OREM, UTAH 2011 - 2016

- Used interpersonal skills to win the company new customers. Sold over 2 million dollars of services.
- Maintained blog through WordPress, wrote email marketing for promotions.

SUPERVISOR, LDS PHILANTHROPIES, BYU TELEFUND - 2003 - 2010

- Managed over 80 students, working with each individually to set goals and improve calling skills.
- Called BYU alumni to reconnect them with the school and facilitate donations.

EDUCATION

DEVMOUNTAIN, PROVO, UTAH – IMMERSIVE WEBDEVELOPMENT TRACK, 2016-2017

BRIGHAM YOUNG UNIVERSITY, PROVO, UTAH – ADVERTISING, 2010 - 3.67 GPA
